

**January-March 2021**  
**BACK to BASICS and BEYOND the BASICS Art Workshops ONLINE**

Instructors: Marjorie Leggitt & Susan Rubin  
All workshops are taught ONLINE with Zoom

**BEYOND the BASICS: Face It (Drawing Portraits)**

February 25 & 26, 2021 (Thursday & Friday, 9:00am-2:30pm, with a 30-minute lunch break)

Drawing people is a challenge! Start with some basic proportional cues that will help you site the shape of a head and plot features on a face. See how to use drawing skills you already know to capture an accurate profile. Step by step we'll work in graphite to build faces from shape and line and apply principles of light on form to flesh out a portrait from a few lines. Enjoy this fun head-on challenge and take your drawing in a fresh new direction!

*NOTE: This class is tailored for students who have completed Back to Basics and Finding Focus, experienced artists are welcome. Contact us for more information.*

**BEYOND the BASICS: Finding Focus**

March 25 & 26, 2021 (Thursday & Friday, 9:00am-2:30pm, with a 30-minute lunch break)

Back to Basics builds confidence and skills - now reach for the next level in Beyond the Basics: Finding Focus! Expand your understanding of composition, perspective and shading with added techniques and challenging still life. Start with conscious planning to develop a completed piece, learning essential elements of a great composition. We'll share tips and tricks for sighting, proportion, scale and angles. Next, we'll show you how to develop a range of tonal values that will make your composition pop right off the page. Two instructors and two full days of instruction and practice will sharpen your eye for accurate drawing and balanced composition. Beyond the Basics expands your artistic toolbox and helps you draw better every time.

*NOTE: Though this class is designed to follow Back to Basics, we welcome artists with some drawing experience. Please contact us!*
